

3-Year Warranty & Trade-in offer for RAYPA autoclaves

Valid through December 31, 2026

RAYPA stands for the highest standards in quality, value for money, user-friendliness, and innovation.

As an importer, VITARIS underscores this with a three-year warranty—unique in the market and independent of the number of cycles—and complements it with an attractive trade-in offer.

3-Year Warranty

- 3-year cycle-independent warranty with the purchase of a RAYPA autoclave (1st year full warranty, 2nd and 3rd years warranty on replacement parts)
- Wear parts charged at cost

Trade-in offer

- Trade-in discount of CHF 3,000 when purchasing a RAYPA TLV Top-Line model
- Includes disposal of the old autoclave
- For all laboratory autoclaves, regardless of brand

To ensure reliable operation, we recommend performing maintenance once a year or every 800 cycles. By signing a maintenance contract, you achieve full technical operational reliability with 100% predictable costs and no surprises. VITARIS also offers attractive solutions for this.
