

Maintenance Plans for RAYPA Autoclaves

Annual preventive maintenance of your autoclaves ensures that sterilization processes are performed reliably, in compliance with standards, and reproducible. Through regular inspection and optimization of all safety- and process-components, you minimize the risk of unplanned outages and ensure smooth operation. At the same time, you extend the service life of your system and avoid costly downtime or repairs. In this way, you are not only investing in safety and quality, but in long-term cost-effectiveness.

You can choose between the ADVANCED and COMPLETE maintenance contracts, or the ESSENTIAL single-service maintenance option. The following overview shows what is included in each maintenance plan and what the benefits are for you.

	Individual Maintenance ESSENTIAL	ADVANCED Maintenance Contract	COMPLETE Maintenance Contract
Annual Maintenance	CHF 1,495	Included	Included
Additional maintenance ¹	CHF 1,300	CHF 1,100	CHF 1,100
Fault coverage	Not included	Included	Included
Discount on replacement parts ²	---	10%	15%
Options³			
• Temperature + Pressure Control	CHF 495	CHF 495	Included
• Temperature control	CHF 330	CHF 330	---
• Pressure control	CHF 330	CHF 330	---
• 3-point calibration	CHF 575	CHF 575	CHF 575
Prices⁴			
• per year	---	CHF 2,150	CHF 2,540
• per year, 5-year fixed term	---	CHF 1,935	CHF 2,285
• per year, 7-year fixed term	---	CHF 1,845	CHF 2,175

¹ Additional maintenance in the same calendar year, recommended for 3–4 cycles per day or approx. 700–800 cycles per year.

² Discount applies to replacement parts and the maintenance kit, which is installed as a necessary component during each maintenance service.

³ Optional services are performed at the same time as the maintenance.

⁴ All prices are exclusive of VAT.
